
- Here each symbol C S U represents a module
- Each circle is a separate "plug-in" or module or applet enhancing client
- Each square is a CGI PERL (or Java in future) server side enhancement
- The set of C's represent a monolithic client with many bundled capabilities
- The set of S's represent a monolithic (HTTP) server
- The set of U's represent a monolithic (UNIX) operating system
- Users interact with Web clients, servers, and Host Operating System
