## To Whom It May Concern

It is my pleasure to write this recommendation letter for Mr. Mahmud Tareq Hassan Khan who is working under my direct supervision for his Ph. D. in the field of Biotechnology and Drug Development. The topic of his Ph. D. thesis is, "Molecular Modelling of Tyrosinase Inhibitors and their Docking Experiments through Bioinformatic Approaches" at the H.E.J. Research Institute of Chemistry, International Center for Chemical Sciences, University of Karachi, Pakistan.

Based upon his pleasant and friendly personality and scientific knowledge, Mr. Khan got himself differentiated from others. He has clear understanding of what needs to be done to accomplish his academic goals. I am impressed from his enthusiasm, keenness to expand his knowledge and research capabilities to contribute in the field of science.

Mr. Khan has a wide exposure to scientific knowledge. His resume speaks of his research capabilities. Mr. Khan has published a good number of papers in reputed science journals in home and abroad.

Mr. Khan is a punctual, disciplined and committed individual. He is also very hard-working. He is capable of conducting independent research work. Mr. Khan is a soft-spoken individual, with a real desire to make positive contributions in whatever areas of endeavor that he undertakes.

I wish him success in his future life.

**Prof. Dr. M. Iqbal Choudhary** *S.I., T.I.*

*Research Supervisor*

Director (Acting)
