Subject: Systems Biology Career Search

Dear Chairman:

My name is C.R. Ashokkumar. As a US Citizen, I was a Senior Research Associate of National Research Council at Eglin AFB. My supervisors were Dr. David E. Jeffcoat and James R. Cloutier. During my tenure, my father passed away and several family issues occurred. So, I temporarily visited India. Now, I would like to resume my career in the USA.

I have done continuous research in Systems Biology based on Aerospace Controls expertise. A curriculum vitae and a technical presentation are provided for your review, consideration and circulation. If necessary, I am willing to travel and meet with the search committee. I look forward to hearing from you.

Thank you.

Sincerely,

C.R. Ashokkumar
