To Whom It May Concern

## Recommendation Letter

Dear Sir/Madam

I am pleased to write this letter recommendation on behalf of Mr. Hayk Davtyan, one of the exceptional students I have met in my teaching practice.

I have acquainted with Mr. Davtyan early in his undergraduate period when he entered my class during his freshman years. He has a wonderful combination of intelligence and industry and he is thought to be a gifted person having excellent prospects in the science. Being bright and hard-working student he has gained excellent knowledge in biophysics. Mr. Davtyan has expressed great scientific activity. He was involved in laboratory research at the Department of Biophysics of Yerevan State University.

Mr. Davtyan has shown constant commitment towards his work. He is always serious, enthusiastic, loyal and responsible member of research team. He is interested in scientific news and carefully follows the current scientific literature. Several times he has presented reports on the latest scientific achievements in international journals.

Mr. Davtyan is able to learn things that are not easy to understand and new for him. That is why I would strongly recommend Mr. Hayk Davtyan for research study in Molecular Life Sciences.

If you need further assistance, please, do not hesitate to contact me.

Sincerely,

*G. Panosyan*

Professor Gerasim Panosyan  
Honorary chief of Department of Biophysics  
Head of Laboratory of Molecular Biology
