

Email received from Dr. M. Tiwari:

To whomsoever it may concern

Dear Sir

Please find enclosed herewith a recommendation for Dr. Meenakshi Sharma for the position of a post-doctoral fellow at the Biocomplexity Institute, Indiana

Yours sincerely

Dr. Manisha Tiwari

Research Scientist, Lecturer

Dr. BR Ambedkar Center for Biomedical Research University of Delhi

Delhi-110 007 India

Recommendation

I take great pleasure in recommending Dr. Meenakshi Sharma for a post-doctoral fellowship at the Biocomplexity Institute. I have known Ms. Meenakshi Sharma since the last eight years. Ms. Meenakshi Sharma completed her Ph.D. degree under my supervision. She is a hard working and sincere student. She has a natural aptitude for experimental work. Despite having a background in Zoology and Toxicology, she successfully carried out her research work, which involved a considerable amount of organic synthesis.

She has worked on developing compounds for treating hyperlipidemia. Two Indian patents have been filed on her work and the process of filing an International patent is underway.

Ms. Meenakshi Sharma is able to get along well with her colleagues and has impressed us with her dedicated efforts towards her work.

Ms. Meenakshi Sharma was employed as a teaching assistant during the course of her Ph.D program. She gave instructions for a variety of practical courses including, Toxicology, Organic Chemistry, Immunology and Genetics, which form part of the M.Sc program in Biomedical Sciences, at our Institute

She has several publications to her credit and if given an opportunity she will do extremely well and will prove to be an asset, in any research laboratory.

D. Manisha Tiwari
