

University of Allahabad
Department of Biochemistry

Dr. Syed Ibrahim Rizvi
Reader

Allahabad - 211002
INDIA

TO WHOM IT MAY CONCERN

I am glad to write a reference letter to **Mr. Pawan Kumar Maurya** who is a Ph.D. Scholar in the Department of Biochemistry, University of Allahabad and pursuing research under my supervision. He has been working on “Alteration in erythrocyte during aging in humans” and produced significant data and he is in the process of communication. I know him last five years. He has secured first position in M.Sc. and has also qualified Council of Scientific and Industrial Research (CSIR) - National Eligibility Test (NET) exam. During this period, he has learned several techniques involved in modern biochemistry. During his research he attended the conference of Association of Clinical Biochemist of India (ACBI). He has done M.Sc. project on “Isoenzymatic analysis of Lactate Dehydrogenase” in Industrial Toxicology Research Center (ITRC).

Mr. Maurya is exceptionally devoted, hard working, intelligent student of this department. He is a gentle person and has good behavior to teachers and colleagues. I am sure that these qualities help him in any academic or research institute where he is offered to work. I strongly recommend his candidature for the applied post.

I wish him success in life.

(S.I. Rizvi)
