

I am shoba rani Medak

Presently I am working as Project Ass in CDFD Nacharam Hyderabad from Aug 2005 onwards.

PhD 2005 :My topic is "Genetic and cytogenetic investigations in breast cancer patients"

I have also worked in IUC DAE project for "heavy metal genotoxicity in chromium and evaluation of antimutagenic diet" from Kolkata(INDIA)

I would like to state that I am young and energetic, sincere and hardworking, committed to perform the task assigned to me to the utmost satisfaction of my superiors.

Given an opportunity in your esteemed organization to offer my services I assure that I would prove to be asset and discharge my abilities using all the skills that I have gained so far in fulfilling the aspirations.

I would be grateful if given an oppurtunity in UR esteemed institute

Thanking You
