To whom it may concern

It is a great pleasure for me to recommend Dr. Qi Zhang as an excellent candidate, who is applying for a postdoc position in your lab.

In my capacity as Director of Institute of Biophysics of Lanzhou University, I had close contact with Dr. Zhang through his doctoral study in our institute. According to my observation, Dr. Zhang is intelligence, aggressive and decisive person who has grasped the basic knowledge and the spirit of science, with a solid knowledge of the literature in his field and the ability to work independently.

During his study at Lanzhou University, Dr. Zhang maintained his academic strengths and because of his diligence and intelligence, his work was published and won excellent student (Graduate student) scholarship (Lanzhou University) in 2005.

Dr. Zhang is a motivated and pleasant student. I believe Dr. Zhang has great potential in further education. Therefore, I strongly recommend Dr. Zhang as an applicant and appreciate your kind consideration of his application.

Sincerely yours,

Yi Wu

Director and Professor of Institute of Biophysics

Lanzhou University

Lanzhou, 730000, China
