TO WHOM IT MAY CONCERN

This is a certify that Dr Keivan Daneshvar Ghorbani, one of my students, is a hard working and research oriented. He proves to be innovative and fit himself in group works. He showed a great deal of interst in research related to Genetics, Molecular Biology and the Tissue related manipulations. It is also to be noted that he is quite famillar with number of advanced techniques in molecular biology such as immunoassay, cell culture and PCR. I would like to recommend him for his further studies. Any assistance to him is highly appreciated.

M. Rasaei
Best regards

Dr.M.J.Rasaei

Associate Professor

Head Department of Medical Biotechnology,

School of Medical Sciences,
