Subject: Maxim Ponomarjov, Reference letter

Dear Professor de Ruyter van Steveninck,

this is a reference letter in support of my former student Maxim Ponomarjov.

I am the Assoc. Professor in the Faculty of Mathematics and Mechanics at St-Petersburg State University where the applicant was pursuing his undergraduate and the graduate study toward his PhD.

I was responsible for the advanced course of Mathematical Analysis at the Mechanics Department. During this course the applicant proved himself as an exclusively promising student strongly committed to research, teaching.

I remember him as one of the brightest persons that the Mechanics Department had at that point.

Please feel free to contact me if further information is needed.

Sincerely yours,

Anatolij Podkorytov

Podkorytov, Anatolij N.
Associate professor

Chair of Mathematical Analysis,
Dept. of Mathematics & Mechanics,
Sankt-Petersburg State University,
198504, St. Petersburg
