Dear Dave:

On behalf of Loma Linda University School of Medicine and the Department of Physiology and Pharmacology, I would like to thank you for your gift to the Department of five TNG-3B computer interface units and associated sets of transducers. We are already using these units along with your NeatTools software in laboratories for a research instrumentation course for graduate students in our Department. The students genuinely enjoyed working with this equipment and software, calling the labs the best of the quarter.

Thank you for your contribution to education at Loma Linda University.

Sincerely,

J. Mailen Kootsey, Ph.D.
Chair, Department of Physiology and Pharmacology
