# WHERE INSIDE MEETS OUTSIDE

Welcome to Summerwood: a place where inside meets outside; where caring and service aren't things of the past; where quality time, quality products, and quality workmanship are all equally important.

If you've picked up this brochure, it's because you're thinking of treating yourself to something special. You're looking to expand your lifestyle.

At Summerwood we have endless ways to help you with that idea. Whether you want a practical garden shed, an elegant gazebo, a beautiful garden house, a rugged cabin ... we have all the options, and styles you won't see anywhere else.

This comprehensive brochure should act as a guide on a tour through Summerwood. Within each section you will see our wide variety of products, as well as the different styles, sizes, and options available within each line.

We suggest you read through the brochure, and then refer to the accompanying price sheet to determine the specifics for your project.

We also encourage you to call us at any point for help. We realize this is an important decision, and we want to make it all as comfortable and as simple as possible.

### See for yourself...

While we're proud of our brochure, our website is where our product really shines. Summerwood.com is stuffed with hundreds of our best pictures, product specifications, pricing, freight rates, and even interactive sections that allow you to mix and match gazebo styles and check out your favorite color of cabana siding. Please join us online at:

[www.summerwood.com](http://www.summerwood.com)

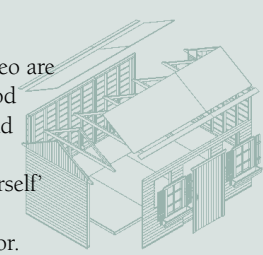

*"Buying from Summerwood was a positive experience, everyone was helpful and courteous!"*

— TERRY H., SALEM OREGON

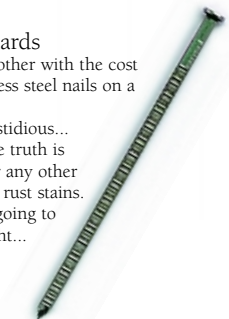

### It's so easy

Labeled components, explicit instructions, and in most cases a video are included to help to insure an easy installation of your Summerwood ready-to-assemble structure (usually one or two days). Bear in mind that live help is also available on line or by phone should you encounter a snag that you'd like some help with. And if 'do-it-yourself' is not for you, a 'hiring a contractor package' is included in your instructions (or at Summerwood.com) to assist you in this endeavor.

### High Standards

Who would bother with the cost of using stainless steel nails on a garden shed? We would. Fastidious... maybe, but the truth is sooner or later any other nail will cause rust stains. And if you're going to do it, do it right... right?

## GARDEN & STORAGE SHEDS

# SHEAR HEAVEN

You've graduated from the metal or plywood shed your parents had ...you're looking for a little private space - a cozy potting shed, a

workshop, or just a practical place to put your lawnmower, bikes, skis, and all the other clutter in your garage. Our Garden & Storage Sheds can be

as simple or elaborate as you like.. Use one to change into your gardening clothes, or to change your lifestyle. It's up to you.

*8 styles to choose from – with options and sizes galore!*

### THE PALMERSTON

Gable Roof Style

*This 6' x 8' garden shed made with Yellowstone Canexel maintenance-free siding has been crafted to near perfection.*

*An attractively detailed 8' x 12' nestled into a residential setting.*

*Double doors make for easy access to riding lawnmowers and the like.*

*This hard-working shed is the centerpiece in any backyard garden.*

*A garden cabana is a must-have for the serious gardener.*

*A dormer adds the perfect detail to a roofline.*

### The warmth of Western Red Cedar

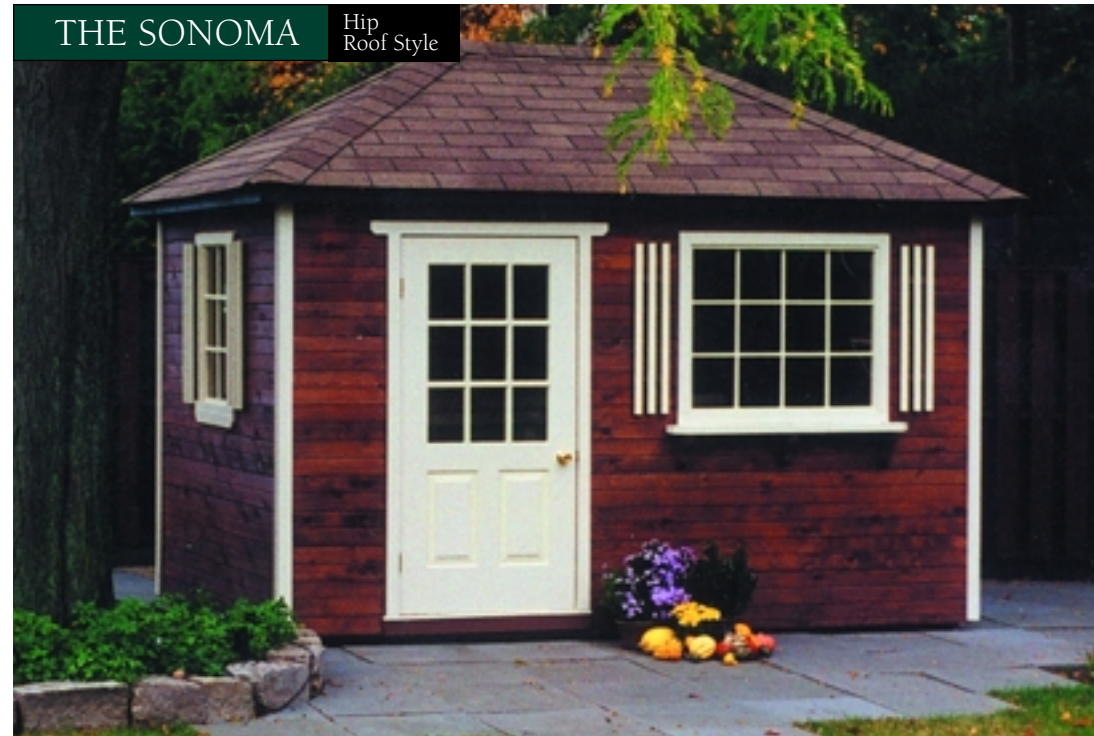

The natural beauty of cedar shines through. For centuries, Western Red Cedar has been known as the "Tree of Life", a vital part of our outdoor lifestyle and heritage. With its

richness of grain, texture and color, Cedar offers a timeless complement to any architectural style, traditional or contemporary. Interestingly, cedar is also celebrated for its

natural oils which provide intrinsic resistance to decay, moisture, and insects. Put Nature on your side by choosing Western Red cedar for your garden structure.

### THE SONOMA

Hip Roof Style

*"Your instructions were clear and all the measurements were exact and well done. Thanks for a great project."*

– STEWART B., AUSTIN, TEXAS

*The perfect private nook to get away from it all and read a book.*

*Cupolas and weathervanes often provide the perfect final touch.*

*Arched double doors mix needed functionality with a sense of style.*

*A wonderful single French door is the highlight of this charming 7' x 14'.*

*A copper-topped cupola makes the small mighty!*

### Personal Design Centre

Utilize our Personal Design Center software to help you visualize what your dream design is going to look like.

Please give us a call and provide us with some basic information and we can e-mail a rendered image in moments.

### THE CATALINA

5-sided Roof Style

*The 5-sided shed is perfect for difficult-to-use corner spaces. The model on the left is elegantly finished in our maintenance-free Canexel® siding. The 5-sided Catalina design above features our dutch door and extra roof overhang.*

**THE SARAWAK** Lean-to Roof Style

If space is tight, our Sarawak lean-to models are an ideal four-seasons solution.

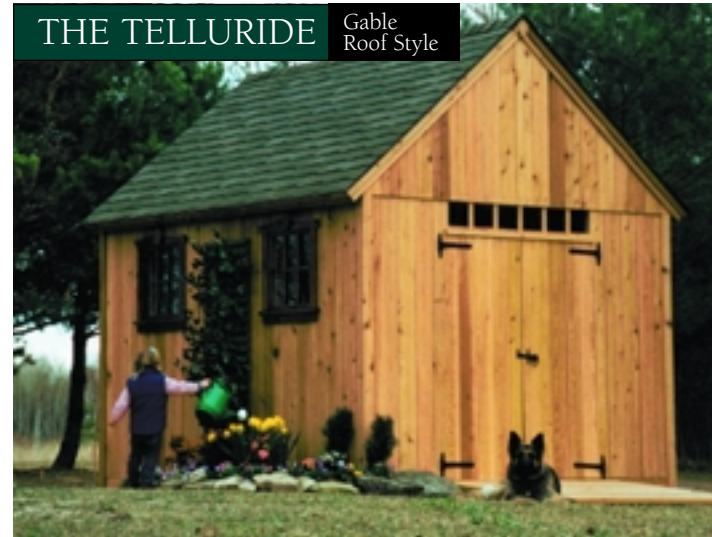

**THE MELBOURNE** Tudor Roof Style

Somewhere between a garden shed and a personal hideaway, our Melbourne Tudor styles are sure to please all who enter its double doors.

**THE TELLURIDE** Gable Roof Style

This spacious design is ideal for those who need space for working with, and not just storing, their tools. Standard features are the large doors with antique hardware, vertical cedar channel siding, country quaint windows, and wall lattice. The optional ramp makes life just that bit easier. Available in two sizes: 10' x 12' (shown) and 12' x 16'.

The Telluride is characterized by its bold 10:12 roof pitch.

*"We feel such a great sense of pride that we did it ourselves. It's beautiful"*

— JANE W., SAN FRANCISCO CA

**THE BAR HARBOR** Saltbox Roof Style

Our Bar Harbor saltbox design has a proud New England heritage.

**THE CRICKET SERIES** Children's Playhouse

Our exuberant playhouse will delight your kids for years to come... or at least until they discover your car.

**The foundation**

Our products have been installed everywhere from backyards to rooftops. In most cases, a simple but sturdy foundation of patio stones is all that is needed to safely support the floor. In situations where the ground slopes, super spikes

can be deployed if needed. If a building permit is required, it may be advisable to install sonotube footings or a concrete pad. Whatever your needs, our knowledgeable staff have the advice you need to ensure that your foundation is firm.

**Finishing your structure**

Left alone, cedar will age to a beautiful silver finish. However, you may wish to stain your structure to match the surrounding

architecture or landscape. Our cedar structures are ideally suited for clear and semi-transparent finishes which accentuate

the dramatic grain and rich hues of the wood. On the other hand, you may prefer the freedom and durability of Canexel maintenance-free siding.

*"The Summerwood staff were most helpful and patient with a couple of novice carpenters. We love our new pool cabana."*

— JOHN L., MARKHAM, ONTARIO

POOL CABANAS

# DREAMING OF BALI

Put on your suit, feel the warmth of pride, mix a drink, take a shower, stop the kids from parading through the house in their dripping wet suits, and unleash your inner party animal and have a whole lot of fun! Or at the very least, hide the pump, filter, heater, skimmer, chemicals, umbrellas and all of the rest of the pool stuff that hints at 'work'.

*Fit the whole gang for a poolside party extravaganza!*

We've livened up the pool parties of hundreds of our customers and when it comes to poolside design we know there's one universal rule: style matters and the sky's the limit (O.K. that's 2). Whether you're putting in a new pool, considering an overhaul of your current facility, or simply looking for some ideas for that outdoor bar you've always wanted, we are your one-stop shop for poolside design.

*When does the party start?*

*Our pool cabanas are an ideal enclosure for your pool equipment and accessories.*

*A trellis adds to the laidback style of this 7' x 14' pool cabana*

*Who needs the Caribbean? This 12' five sided cabana has all the necessities for poolside entertainment. The custom curved wall was our client's whim.. the rest of the designs utilizes standard options.*

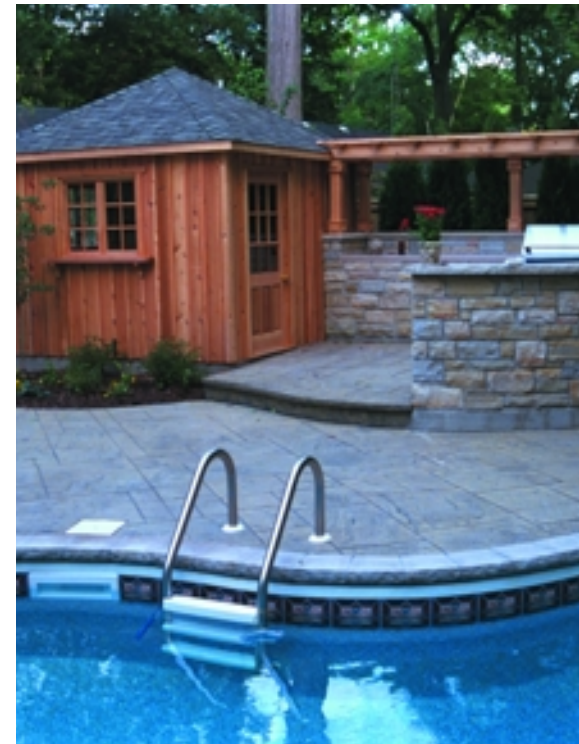

*This 7x 14' Sonoma cabana is one of our most popular styles.*

*Our Catalina five-sided design fits beautifully in a corner...and keeps a parade of wet feet at bay.*

*This 10' five sided pool cabana features a deluxe door, extra overhang and Yellowstone Canaxel siding.*

*This board and batten look is an excellent example of our many siding options.*

*The complete poolside entertainment centre.*

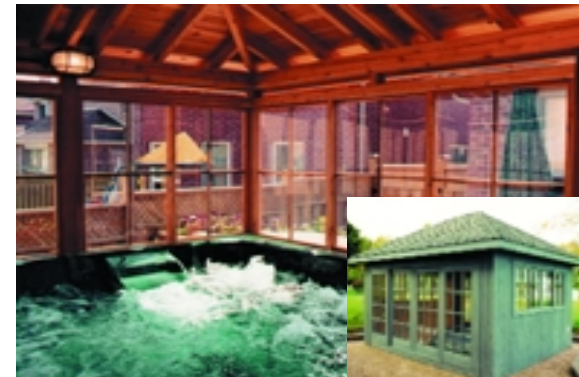

## Take a look at our maintenance-free siding!

The first time you see a Summerwood product clad in Canaxel® siding, you fall in love on looks alone. But underneath its classic warmth and beauty is a tough man-made low maintenance product that will survive years of the harshest weather Mother Nature can throw at it. And with ten beautiful colours to choose from, you can completely customize any one of our garden sheds or cabanas to suit your needs perfectly.

- |  |             |  |        |
|--|-------------|--|--------|
|  | Mist Grey   |  | Sierra |
|  | Scotia Blue |  | Acadia |
|  | Yellowstone |  | Sand   |
|  | Country Red |  | White  |
|  | Pine Green  |  | Almond |

## Spa Enclosure

Our beautiful cedar Sojo spa enclosures are extremely popular for year-round relaxation. Sliding windows are standard; insert shows optional full-width double French Doors.

### Planning a pool?

Most pools incorporate some sort of poolside cabana into the design. If you are considering going this route, we have a great deal of experience working with pool companies to ensure that the design is appropriate and that installation is smooth. Feel free to contact us and allow

our expert staff to work with you and your pool company before, during, and after to ensure that the outcome is to your complete satisfaction. There are many things to consider so please make sure that you take this important step.

**THE CANMORE** Weekend Cabin

Bigger than your average bunkie. This 14' x 16' makes a great place for visiting relatives to sleep over, to store your boat over the winter, or even to hide from any rampaging wildlife.

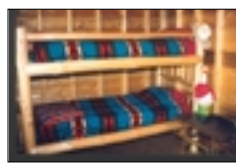

WEEKEND CABINS, BARNES, STUDIOS AND LARGER STRUCTURES

# ROAM ON THE RANGE

The warmth, beauty and aroma of cedar is perhaps most prominent when you step inside one of our popular Weekend Cabins. As a starter cabin to tide you over while you're waiting for your inheritance, or a Bunkie to store the in-laws, our cabins are at home (or a home) in any setting.

With plenty of room for loft sleeping and a stylish rail design that provides structural support and visual appeal, our weekend cabins are in high demand. Whether you're looking for a shabby chic house in the country or a stylishly rugged cabin in the woods, we have numerous sizes and options to accommodate your design requirements.

*"The entire family is really pleased with our bunkie and the quality and service provided by Summerwood Products."*

- BOB A., SHAKER HEIGHTS, OHIO

### Cedar Upgrade

Our interior bunkie upgrade is perfect for those looking to be completely surrounded by nature. It includes a floor that's been upgraded from the standard plywood to a T&G 1 x 6 pine, 2 x 4 cedar wall studs (instead of spruce) and 1 x 6 cedar roof boards that keep a roof over your head and the aroma of cedar in the air.

**THE PIONEER** Classic Barn

Our Pioneer barn combines new world construction with old world design and craftsmanship. Available in either vertical channel siding or our attractive maintenance-free Canexel siding. (Shown here in Country Red)

**Features:**

- A roomy loft complete with hatch and ladder
- Sturdy 1 X 8 Pine roof boards
- Barn-style window
- Side dutch door

## Drawings and Permits

In most jurisdictions, building permits are not required for structures under 100 sq. ft. Once you're over 100 sq. ft., a permit may be required. All Summerwood structures exceeding 100 sq. ft. are manufactured to conform to the most rigid of building codes, however we are talking government here and some codes have odd stipulations. Should a slight modification be required to conform to your local guideline, we will be pleased to make that change for you (a small charge may apply.) If you require a permit drawing and specifications, we will be pleased to provide it for you at the time of your order.

**TALL ORDERS** Large Structures

More and more of our customers are looking for larger structures to accommodate their varied lifestyles. While our buildings can be customized to satisfy almost any requirement, we are also in the midst of designing a an exciting new series of Summerwood mid-sized structures that we will be introducing soon. Please call us if you are "in the market" and are interested in a progress report.

GAZEBOS

# A SLOWER PLACE

Gazebos are a reminder of a slower pace. They can be a place to write, a place to reflect, a place for romance, a place to celebrate occasions; or even just a darn good barbeque.

Summerwood western red cedar gazebos are designed with all of these uses in mind. As a result, our gazebos have become the choice of homeowners and exterior design

professionals alike. Our standard gazebo styles range from 8 ft. to 20 ft. in diameter. Custom and commercial sizes are virtually limitless.

THE MONTEREY

With a gently curved roof and an attractive cupola, the Monterey Classic is a timeless design. Its clean lines blend well with all architectural styles.

THE SAN CRISTOBAL

Our spacious San Cristobal Garden House is a solid western red cedar structure beautifully designed for year-round use. It is ideal as an

exterior studio, office, breakfast nook, or outdoor kiosk of any sort. This 14 ft. garden house is striking in a poolside setting. (Above) This 10 ft. San Cristobal is at home in this idyllic pond-side setting. (Below)

THE VICTORIAN

Elegant and ornate, the Victorian creates an ideal centerpiece for any landscape setting. The two-tiered pagoda, hand-cut spindled railings, and decorative corner braces distinguish this attractive design. (Above). A 14 ft. Victorian finished in a natural stain. (Below)

THE MONTPPELLIER

Our Montpellier Garden Pavilions are ideally suited in either a park or garden setting. This elegant but simple 10 ft. design is crowned with a copper top cupola and finial.

THE CARLISLE

Traditional gingerbread and turned spindle railing make this gazebo a garden showpiece. The 12 ft. Carlisle featured here is finished in a white stain with natural accents.

THE TATTLECREEK

Featuring a remarkable roofline that reaches new heights in gazebo design, our Tattlecreek gazebo is a family favourite. With playful cedar rail panels and a gently curved spandrel, our Tattlecreek is the ideal choice to enliven any backyard get-together. (12 ft. model shown)

*“For two seventy+ year olds, we are very proud of our summer gazebo project”*

– ELEANOR AND FRANK B., CALEDON, ONTARIO

## Freight

Our ready-to-assemble kits are packaged securely and efficiently for convenient shipping directly to your home. Please refer to our online freight chart at [www.summerwood.com](http://www.summerwood.com) or give us a call for

the freight rate to your location. We'll take care of all the details required to ensure the timely delivery of your structure.

# TOOLS FOR THE TRADE

## GAZEBO OPTIONS

### Screen Kit:

Screen kits will keep pesky intruders away... well except for that neighbor who invites himself over every so often! This decorative and functional upgrade will help you enjoy your new gazebo comfortably. Made of strong nylon mesh, our screen kits come complete with screening for the floor, cupola and a custom cedar screen door.

### Bench Kit:

Our bench kits come complete with custom cedar boards and brackets. Increase the useable area of your gazebo, while offering a multi-seasonal seating option.

No one can set as striking a tone for your commercial project as Summerwood. For our commercial clients, we augment our standard gazebos and shelters with an unlimited number of custom designs. Our turnaround time is quick, and we make every effort to coordinate with your schedule.

If you have a specific idea in mind – or maybe just a creative beginning – give us a call or fax us a sketch. We'll help you take it to the next step by preparing a quote and, if necessary, a CAD drawing. Specify Summerwood, and make a statement with your next project.

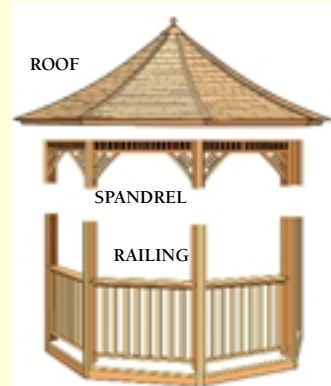

## What size should I get?

Our smallest size (8 ft.) will accommodate 2 adults comfortably. Count on 2 additional adults with each 2' increase in size. (ie. 10 ft. holds 4 adults, 12 ft. holds 6 adults, and so on. . .). It's always nice to have a little extra space.

## Mix and Match

Can't decide which style of gazebo is for you? Create your own. All of our components are cleverly designed to fit together so that you can choose the roof off one style, the spandrel from another, and the railing from yet another.

Visit us online to see a visual image of the finished product.

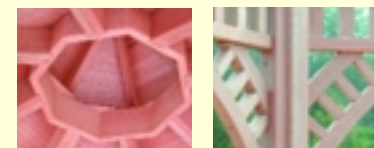

## Manufacturing Process

All of our products are constructed from the highest quality materials with every component engineered to exacting standards. Each piece is further inspected to ensure it meets our rigid quality control specifications. The result is a product of incomparable beauty and structural integrity, designed to last a lifetime.

## New! Cabinetry Grade Tropical Hardwood Garden Structures

Our new line of cabinetry grade garden structures offers the epitome of style and craftsmanship. This exceptional product is crafted from 'Meranti', a Teak-like Indonesian tropical hardwood that was designed by nature to withstand the harshest elements.

Please call for more details.

## Don't be shy

Please call at the drop of a hat and we'll work with you to make sure you get the help you need. And if you're computer savvy, go online and use our **live help** where we can actually "push" design suggestions on to your monitor at home (this is really cool!) Remember, we design sheds every day.

*"The building inspector says it's the best he's ever seen"*

– ERROL M., HAMMINGTON, NEW JERSEY

## How To Reach Us

We also encourage you to call us at any point for help. We realize this is an important decision, and we want to make it all as comfortable and as simple as possible for you.

And our customers shouldn't be surprised to get help from one of our dedicated employees who decide to make a few calls from home just to get the job done.

We offer 5 ways of supporting our customers:

- by phone  
(416) 498-9379  
1 800 663-5042
- by fax  
(416) 431-2454
- by email
