Help: how do I check initial spaces?

From: walter@media.vol.it (walter@media.vol.it)
To: comp.lang.javascript
Date: Jul 30 1996 17:55

```
Would anyone please tell me how could I check if a string has initial
spaces?

I have a text in my form. I don't want users can insert "" (easy to do)
and "    " or " name" or "     name" (not easy for me).

Sorry for my english. Hope you understand.

You can also answer me to my e-mail.

Thanks, Walter
```
