Help
Welcome to Software Project Manageme
Press D to choose Developers at vari
site. You can customize the paramete
from the customisation window.
Press Manager to enter into manager
You can place manager
at any place on the working area by
Press Agent to enter into agent mode
and place in anywhere in working are
Agents keep a check on the developer
and when any developer crosses the t
assigned to him/her by manager,
it reflects this by changing the
Plotted Developer at X= 512 Y :=137
