Dr. Hai Jin
The University of Hong Kong
Department of Electrical and Electronic Engineering
Pokfulam Road, HONG KONG

Dear Dr. Jin,

Thank you very much for your interest in *Concurrency: Practice and Experience*. We enclose two referee reports on your paper, "Theoretical Analysis of Optimal Striping Unit Size for Disk Array" (C403).

Their conclusions are similar, and suggest your paper is interesting and appropriate for our journal. However, there are some analysis and presentation issues which imply that the paper needs to be modified. We would be happy to reconsider a revised paper that would probably not need to be re-reviewed, as long as you address these comments and enclose a memo describing your response to the referees.

We request that you resubmit your paper double-spaced with the tables and figures placed at the end of the text. Please note in the text where each table and figure is to be placed.

Yours Sincerely,

Geoffrey C. Fox
Professor of Computer Science and Physics
