

WEATHERMAKER® 38TSA WITH PURON™ REFRIGERANT

Central Air Conditioning

ENVIRONMENTALLY SOUND AND HIGH-EFFICIENCY PERFORMANCE AT 14.0 SEER

Indulge in cool comfort with Carrier's WeatherMaker® 38TSA with Puron™ refrigerant.

leadership

Carrier's WeatherMaker 38TSA air conditioner delivers high-efficiency comfort that's easy on the environment. Designed to use the environmentally sound refrigerant, Puron, Carrier is improving the way you cool your home. Federal law has required the phase out of many refrigerants. That's why Carrier has been designing, building and perfecting the new technology that uses the refrigerant Puron. In fact, this technological breakthrough has been awarded the Green Seal of Approval by a national not-for-profit agency. With Carrier's WeatherMaker 38TSA, you can enjoy environmentally sound, energy-efficient cooling year after year.

Carrier's technologically-advanced design and use of Puron, the environmentally sound refrigerant, has earned the Green Seal of Approval.

technology

- 1 Puron refrigerant** inside the system delivers environmentally sound comfort. This refrigerant of the future will deliver cool comfort and energy savings for years to come. And, you'll enjoy lower service costs in the future.
- 2 Quiet, energy-efficient performance** of the outdoor unit is the result of Carrier's exclusive Silencer System. The combination of our uniquely designed top and our proven fan and fan motor delivers enhanced energy efficiency and extra-quiet sound levels, the quietest in the industry.
- 3 Reliable performance** of the scroll compressor provides long-lasting, energy-efficient comfort year after year.
- 4 Consistent operation** is ensured by the high and low pressure switches that protect the compressor from extreme conditions.

- 5 As part of the quietest family of products in the industry, reduced noise** is the result of our compressor vibration isolator plate. Preventing vibration from transmitting into the base pan helps minimize operational sound.
- 6 Added reliability** is provided by the filter drier which prevents the formation of acids that can cause corrosion in the system.

efficiency

Carrier's WeatherMaker 38TSA provides additional energy savings through improved heat transfer. Designed specifically to use Puron refrigerant, the WeatherMaker 38TSA delivers 14.0 SEER (Seasonal Energy Efficiency Ratio). When matched with Carrier's variable speed indoor section, the 38TSA can achieve up to 15.5 SEER. The outstanding ratings of this air conditioner meet the EPA Energy Star guidelines for energy-efficient performance.

performance

With Carrier's WeatherMaker 38TSA, you can count on premium cooling performance. Each component of the WeatherMaker 38TSA is designed to provide optimum efficiency, comfort and reliability. And, for even greater comfort and energy savings, ask your indoor weather expert about a matching indoor coil. A properly matched coil can provide precision air-flow and improved humidity control throughout every season.

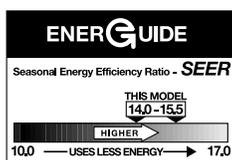

As an ENERGY STAR Partner™ Carrier Corporation has determined that this product meets the ENERGY STAR guidelines for energy efficiency.

WARRANTY

Carrier ensures your indoor weather by providing written product and component warranties. The scroll compressor is protected by a ten-year limited warranty. The entire unit is protected by a one-year limited warranty. Extended warranties are also available. Ask your indoor weather expert for details.

CUSTOM MADE INDOOR WEATHER™

Always look for these symbols, the air conditioning industry seals of certified performance, efficiency and capacity.
