

WEATHERMAKER® 38TZA WITH PURON™ REFRIGERANT

# Central Air Conditioning

ENVIRONMENTALLY SOUND COMFORT FOR THE FUTURE AT 12.0 SEER

# Carrier's WeatherMaker® 38TZA with Puron™ refrigerant is a cool investment in comfort.

leadership

With the WeatherMaker 38TZA, Carrier offers the first air conditioner designed to deliver exceptional indoor weather while using the environmentally sound refrigerant Puron. Federal law has required the phase out of many refrigerants. As a result, heating and air conditioning systems using refrigerants other than Puron may cost more to service in the future. However, with Carrier's technologically advanced WeatherMaker 38TZA, you'll be sure to enjoy environmentally sound, energy-efficient cooling right now and for many years to come.

Carrier's technologically-advanced design and use of Puron, an environmentally sound refrigerant, has earned the Green Seal of Approval.

technology

- 1** Puron refrigerant inside the system delivers environmentally sound comfort. As the refrigerant of the future, Puron will deliver cool comfort and energy savings and you'll enjoy lower service costs for years to come.
- 2** Quiet, energy-efficient performance of the outdoor unit is the result of Carrier's exclusive Silencer System. The combination of our uniquely designed top and our proven fan and fan motor delivers enhanced energy efficiency and extra-quiet sound levels, the quietest in the industry.
- 3** Reliable performance of the scroll compressor provides long-lasting, energy-efficient comfort year after year.
- 4** Consistent operation is ensured by the high and low pressure switches that protect the compressor from extreme conditions.

- 5** As part of the quietest family of products in the industry, reduced noise is the result of our compressor vibration isolator plate. Preventing vibration from transmitting into the base pan helps minimize operational sound.
- 6** Added reliability is provided by the filter drier which prevents the formation of acids that can cause corrosion in the system.

efficiency

As one of the more efficient air conditioners available, the WeatherMaker 38TZA keeps you comfortable with 12.0 SEER (Seasonal Energy Efficiency Ratio). When matched with Carrier's variable speed indoor section, the 38TZA can deliver up to 14.0 SEER. Designed for extra efficiency, the WeatherMaker 38TZA uses Puron refrigerant which enhances energy savings through better heat transfer. The outstanding ratings of this air conditioner meet the EPA Energy Star guidelines for energy-efficient performance. The environmentally sound design, energy-efficient operation and long-lasting performance of the WeatherMaker 38TZA make this air conditioner an excellent investment in your future comfort, providing you with years of Custom Made Indoor Weather.

performance

Carrier's innovative technology has taken the guesswork out of choosing an alternative refrigerant for the future. The WeatherMaker 38TZA offers performance that has been proven through years of development, testing and use in homes just like yours. This proven performance makes the WeatherMaker 38TZA air conditioner the cooling machine of the future. Each component is designed to provide optimum efficiency, comfort and reliability.

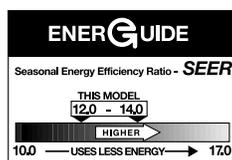

As an ENERGY STAR Partner™ Carrier Corporation has determined that this product meets the ENERGY STAR guidelines for energy efficiency.

**WARRANTY**

Carrier ensures your indoor weather by providing written product and component warranties. The scroll compressor is protected by a ten-year limited warranty. The entire unit is protected by a one-year limited warranty. Extended warranties are also available. Ask your indoor weather expert for details.

**CUSTOM MADE INDOOR WEATHER™**

Always look for these symbols, the air conditioning industry seals of certified performance, efficiency and capacity.
