First Part of Video Server Presentation for HPDC95 Tutorial

Given by Marek Podgorny at HPDC95 Pentagon City on August 1,1995. Foils prepared July 31,1995

Full Index See also color GIF

- This presentation describes issues involved in Video server and transport
- As well as server technology, we cover data transport over ATM, and MPEG compression
- VBR (Variable Bit Rate) and CBR (Constant Bit Rate) are two data delivery options and we present comparisons
- We discuss the realAudio digital audio and extensions to video
