TO: Hidden Valley Apartments

Due to the scarcity of parking space, I had parked my car to the lot in front of rental office on Monday night. Driver side door of my car has been damaged by an intruder appearently looking for a valuable thing in the car. Now, the door of my car doesn't close. Appearently, I am not the only one whose car has been damaged, I saw some other car's window has been broken in center lot.

Considering that my car is much more cheaper than the other cars around, other tenants may also become subject to similar incidents. Due to that, I request from you to improve security around the apartment complex and maybe ask for a patrol from police department in nights.

Sincerely;

Celal OKUR
