Mar. 6, 1999

Dear Dad and Mom,

It has been more than one year since we left home. As you know, we have left Syracuse University, came to IBM Toronto software laboratory. It is one of the biggest research and development centers in the area.

Toronto is also a bigger city, I think you are going to like it. We plan to invite both of you to visit Toronto for a short time, say, from July to October.

We will provide all the necessary expenses for the trip and the place when you are here. We hope you will have a wonderful trip.

This letter is going to be used to assist your visa application.

Miss you very much,

Guansong and Duo
